Subject: RE: status of TSCA application for Wilmington Marine site

Flag: Follow up

Good Afternoon Karen,

I would like to give you an update regarding our TSCA application. We had intended to deliver the document by the end of April; however, we recently had our new on-call agreements finalized with all of our consultants and are having some delays processing new work agreements with all of our jobs. We will need another month before our application is ready. Please let me know if you have any questions or concerns. Email or cell phone is the best way to reach me at this time.

Thanks,

Mark Withrow, PE

Subject: status of TSCA application for Wilmington Marine site

CAUTION: External email.

Hi Mark, I replaced Cynthia Ruelas as Project Manager for oversight on PCB cleanup at POLA sites. After reviewing Cynthia's files, it looks like the most recent official correspondence was EPA's June 2019 letter requesting an application for a risk-based approval.

I thought I would check in on the status of POLA's preparation of the application and see if there's anything that might be holding it up?

Thanks,
Karen

Karen Irwin
